Hj Khairuzzaman Mustafa

Mohammad Fauzi Ghazali (Central region)

The Symposium on Chemical, Biological and Health Safety is aimed to provide participants with the skills and knowledge necessary to assess hazards related to the use of chemical and biological materials in their workplace and to be able to identify the controls required. Selected speakers from government agencies, chemical industries and institutions of higher learning are invited to share their knowledge and experiences. This symposium will benefit employers and employees with responsibilities for managing the safe use of chemical at work and implementing the requirements of current legislation.
